DETAILED ACTION

1. Applicant's election without traverse of Group I, claims 1-32 & 49-5 in the reply filed on 06 July 2007 is acknowledged.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim 3 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is directed to the presence of an employee, not a useful process, machine, manufacture, or composition of matter.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1-32 & 49-51 are rejected under 35 U.S.C. 102(b) as being anticipated by Walker et al (US 2003/0027635 A1) herein after Walker.**

Walker discloses the use of casino floor personnel as representatives of the casino hospitality club and allows them to present offers to the players at the machines or tables. Walker discloses in the invention the offer for a credit card, but for the purpose of this examination, the examiner identifies in Fig. 7 that the offer may just be "signing up for a player tracking card", or card club. Thus both a method of registering an unenrolled player in a player tracking system and a player tracking system for uncared players are disclosed.

Regarding claim 1; Walker discloses:

- a. A method of registering an unenrolled player in a player tracking system, (¶[0019-0023]).

- b. Permitting the unenrolled player to play a gaming device, (Fig. 7), if the representative is allowed to offer a signing bonus, it means that the player can play without enrollment.

9. Regarding claim 6; Walker discloses wherein the triggering event corresponds to an unenrolled player among the plurality of players having a highest level of player rating, (Fig. 6), wherein (625) discloses that a specific offer is given only for the condition of a hot player, and (610) corresponds to an unenrolled player.
10. Regarding claims 7 & 8; Walker discloses wherein the triggering event corresponds to a randomly selected player among the plurality of players, and wherein the triggering event is a random occurrence, (¶[0092]).
11. Regarding claim 9; Walker discloses wherein the triggering event is a predetermined occurrence, (¶[0080]).
12. Regarding claim 10; Walker discloses wherein notifying the unenrolled player comprises soliciting the unenrolled player to enroll in the player tracking system, (Fig. 7).

16. Regarding claim 14; Walker discloses wherein notifying the unenrolled player comprises aurally notifying the unenrolled player, (¶[0171]).
17. Regarding claim 15; Walker discloses wherein the aural notification is emitted from the gaming device, (¶[0182]).
18. Regarding claim 16; Walker discloses wherein the aural notification is emitted from a speaker remote from the gaming device, (¶[0182]).
19. Regarding claim 17; Walker discloses wherein the unenrolled player is allowed to self enroll, (¶[0123]).
20. Regarding claims 18 & 19; Walker discloses wherein the unenrolled player is allowed to enroll through a terminal on the casino floor, and wherein the terminal is unattended, (¶[0087 & 0045]), such as using a PDA, whereas in ¶0045 Walker discloses as being any number of representative devices such as a Kiosk terminal.
21. Regarding claim 20; Walker discloses herein the unenrolled player is allowed to enroll at the gaming device, (¶[0171]).
22. Regarding claim 21; Walker discloses wherein the unenrolled player is allowed to enroll through a keypad associated with the gaming device, (¶[0171]).
